- ✓ Google Maps, Weather Channel
- ✓ Music, Video, & Document Files
- ✓ Sign Up/Registration, Poll, Forum, RSS Feeds
- ✓ Contact Details & Lists
- ✓ Social Media Tools
- ✓ Mailing List – 50 Name Limit
- ✓ Email Customer Support

## Start an Online Presence:

Creating a site is the first step in getting your message to the world. With our Basic package you will get a website name like [www.yourwebsite.Talkspot.com](http://www.yourwebsite.Talkspot.com) and your site will instantly be online and accessible on the internet.

## Social Media Tools:

Social Media Sharing widget provides big opportunities to increase visibility of your websites to over millions of Facebook, Twitter, Google+ and Linked in users. When users click these buttons, they are telling their friends that they approve of your website and recommend it.

Use our Mobile App: Talkspot Connect from your iPhone™, iPod™ or iPad™, to create and send blog messages with images to your website, FaceBook™ and Twitter™.

## Professional Photo Galleries:

Add one or more photo galleries to your website. With multiple display options you can showcase your images in multiple ways, even use Flash. Add Watermarks to the images, and many more powerful image editing options.

## Drag and Drop Widgets:

Not only do you get our text and great image editing tools, you can use our drag and drop technology to add a Google map to show your location, music, video and document files, page counter, weather channel, poll, forum, RSS feeds, contact details and lists, and even lock down one or all of your pages with registration tools.
